P R E P A R A T I O N T I M E

We need 10 working days for preparation before shipment.

Each wall is different and requires different wiring. For the preparation, we need a simple front view drawing indicating the order of the panels to each other, and the distance between the panel-wall and the DMX Control.

Chronological order of payment receipts is considered for the production schedule.

NOTE! Sometimes, there can be 20 days delay before shipment. This time depends on order increase.

Please, place your order early enough to protect yourself from panic!
